Principal's Message

Our garden plot has a new fence around it. This is to protect it from the rabbits and kangaroos that frequent our playground and the chooks that love to have a scratch in the lovely soil in our garden beds. It does mean our chooks can be truly "Free range". Students will need to care for our chooks, otherwise they will stop laying their nutritious eggs for us.

Mr Matthews our GA built the fence. He is running a competition for students to create a design for the entry gates front and back. Apart from the honour of a student having their design on the gates, a small prize is also on offer. Students can spend time on their design at home or there may be time in class to complete their design.

Entries to the competition are on an A4 piece of paper.

NAPLAN

NAPLAN results arrived at the school this week. As a staff we will analyse the results for the positives in student performance, as well as discussing ways of addressing areas of need, indicated by student performance.

We will reflect on the strategic directions of the School Plan and evaluate the impact of current strategies to determine whether additional or alternative strategies are needed. A quick look at our student performance in

writing, indicates both years 3 and 5 fared well as a school, when comparing our results to state and similar school results.

Welcome Balgowlah North Public School

Next week we play host to Balgowlah North Public School. They arrive in the area on Monday and will visit our school on Tuesday. We have organised a whale watching tour for our guests in the morning. In the afternoon they will entertain us with a free concert by their school band.

Ms Lewis is a friend of a staff member at the school. Thanks for encouraging them to visit Huskisson Public School Ms Lewis, I'm sure they'll have a great time.

Regional Spelling Bee Finals

Congratulations to our four participants in the Spelling Bee Finals, held at Shoalhaven Heads Public School on Tuesday. You were great ambassadors for the school.

Stage 2 – Kate and Angela

Stage 3 – Evie and Kymmie

In the competition our Stage 2 students advanced to rounds 5 & 6, while our Stage 3 students advanced to rounds 2 & 4. The winners of the competition from Illaroo Road Public School (Stage 2) and Ulladulla Public School (Stage 3) now compete at the State Final in November, at the Sydney Opera House.

Lids4Kids

Your Lids change kids' lives forever

Don't throw away those plastic lids. They can be recycled to make prosthetic limbs for children with a disability.

Low and high density (Numbers 2 and 4 on the lid) bottle lids are shredded and turned into prosthetic limbs using 3D printing. They are distributed to victims of landmines.

500 lids equals a prosthetic hand.

So don't throw away those lids, they have a big life

ahead of them.

Student Leadership

Next Monday the campaign trail for our Year 5 students running for Captain and Vice-Captain begins. Interested Year 5 students will take home a formal application to be signed by their parents. This is essential, as some of the duties of a Captain or Vice-Captain is to represent the school outside school hours. The Anzac march is a very good example.

Candidates will attend a series of leadership workshops run by myself. All Stage 3 students will attend a leadership day run by Mr Frost. How our candidates participate in this day will be observed.

The campaign will involve speeches and running an activity day.

Already there is keen interest, with some prospective candidates having started their speech for election day.

**HOW FIREPROOF
 IS YOUR PLAN?**

Congratulations Charlie
 on your fantastic
 achievements in Golf

Stage 2 Shark Excursion

Responsible Students

Stage 2 participated in a Shark Excursion last Friday. We had a great day. The students measured the length of different sharks and learnt that a whale shark was the same size as 14 1/2 students. Students also learnt about the different types of teeth sharks have. They participated in numerous hands on activities. We braved the wind and had a walk looking for shark eggs and teeth. Lots of students found Port Jackson Shark eggs. Then the students had a lunch break on

the beach while the Scientists went diving to found a shark. Due to the wind they had to go in a different spot then originally planned and were not able to found a shark. The day ended with a shark trivia relay. The students have been able to use some of the facts they learnt in the Port Jackson Shark Informative Reports.
